**Report on World Environment Day Celebration at Government General Degree College, Ranibandh**

**Date:** June 5, 2023

**Venue:** Government General Degree College, Ranibandh

**Presided by:** Officer-in-Charge

World Environment Day was celebrated with great enthusiasm and fervor at Government General Degree College, Ranibandh, emphasizing the importance of environmental conservation and sustainability. The event witnessed active participation from the college community, as well as significant contributions from external partners, resulting in impactful outcomes. Mr. Madhusudan Garain, the Honorable Officer-in-Charge of the college, delivered an inspiring address highlighting the significance of World Environment Day and the urgent need for environmental protection. His speech emphasized the role of individuals and communities in preserving our planet for future generations. A notable contribution to the event came from the local forest office, which generously gifted 100 saplings to the college. This gesture underscored the importance of collaboration between academic institutions and governmental agencies in promoting environmental conservation. The saplings provided a tangible opportunity for the college community to contribute to reforestation efforts and enhance green cover in the region. In addition to on-campus activities, a rally was organized in nearby villages to raise awareness about environmental issues and encourage community participation in conservation efforts. Students, faculty, and staff enthusiastically participated in the rally, carrying banners and spreading messages of environmental stewardship. The rally served as a platform to engage with local residents, disseminate information, and inspire collective action for a cleaner and greener environment. The celebration culminated in a tree plantation drive, where participants planted the gifted saplings in designated areas within the college campus and surrounding areas. The tree plantation drive symbolized the college's commitment to environmental sustainability and served as a tangible action towards mitigating climate change and preserving biodiversity. The event not only raised awareness about environmental issues but also inspired concrete actions towards conservation and sustainable development.

**Outcomes:**

1. Continued collaboration with external partners for environmental initiatives.
2. Expansion of community outreach programs to engage a wider audience.
3. Integration of environmental themes into the college curriculum to promote education and awareness.
